- Featured jobs
- Booking fees

Developer requirement: The platform architecture should support paid plans, subscriptions, lead charging and featured placements from the beginning, with these functions initially disabled or set to £0 during the launch period.

7. LAUNCH STRATEGY

Initial target: Launch in one UK city or region and recruit 50–100 quality builders.

- Recruit Builders
- Generate Customer Jobs
- Test Platform
- Improve Product
- Expand to additional areas

Growth path: One City → Multiple Cities → Nationwide UK
